

Montessori with miss margie

November Newsletter

Dear Morey Montessori Families,

We are working to provide an environment in which your child can explore the academic world, gain literacy and numeracy skills, understand science and social studies, learn about themselves, and grow in independence, critical thinking, problem-solving skills, and peaceful conflict resolution.

We hold a picture of the child as they are now, and as they will be as an adult:

Knowing their own strengths

Knowing what interests them and brings them joy.

Capable of making wise, informed decisions about all aspects of their lives:

friends, partners, careers, community, parenting

The best ways to support them now is to:

Understand their needs and development at their age and parent accordingly.

Spend time with them, talk with them, have fun together.

Help them learn to take care of themselves, and be part of taking care of your home.

Model the behavior you expect from them as they are looking to you.

Please visit the links given below and on our website and Facebook page for more information about child development, and frequently asked questions about the Montessori method of education.

I will be hosting a Curriculum Night at our school in January. More information to come before winter break!

Always feel free to send me a note at margiedonovan@choiceschools.com.

Sincerely,

Margie Donovan
Montessori Specialist
Morey Montessori PSA
